

ZERO TO THREE

Official DC:0–5™ Regional Training *Coming Soon to a Location Near You*

With the launch of the highly anticipated *DC:0–5™ Diagnostic Classification of Mental Health and Developmental Disorders of Infancy and Early Childhood* (DC:0–5), ZERO TO THREE is pleased to offer official DC:0–5 training for advanced infant mental health practitioners.

This official 2-day training, delivered by ZERO TO THREE Expert Faculty, is designed for mental health clinicians, psychiatrists, pediatricians, nurse practitioners, and early intervention specialists whose work with infants, young children, and their families, involves diagnostic formulation and treatment.

About DC:0–5™

DC:0–5™: Diagnostic Classification of Mental Health and Developmental Disorders of Infancy and Early Childhood enhances the professional's ability to prevent, diagnose, and treat mental health problems in the earliest years by identifying and describing disorders not addressed in other classification systems. DC:0–5 uses a multiaxial approach to diagnosis which captures the developmental, relational, and contextual understanding of the infant/young child. Individuals across disciplines will find it to be an essential guide to diagnostic formulation with infants and young children, in a wide range of settings.

June 15-16, 2017

Center for Clinical Services Montclair State University

Trainers include: Gerard Costa, Ph.D., Montclair State University and Kathy Mulrooney, MA, LPC, ZERO TO THREE
